To Whom It May Concern:

Brian Chevalier performed his show called "Reading Rocks" for the elementary school in which I teach. We have grades K-5 in our building. I was in charge of a Reading program for the entire school called "Books and Beyond". Brian tailored his program to suit the needs of *my* program. All the children, particularly the younger students, K-3, thoroughly enjoyed his songs. There was a great deal of audience participation throughout the program. He pointed out through songs and words how important reading is to adults and children. My purpose for hiring Brian was to have an assembly that would motivate the students who needed a gentle push since the program was coming to an end. His program was a wonderful motivator. It would also be very useful for the kick-off assembly. I was very pleased with his show and I would recommend him highly.

Sincerely,

Mary B. Maher
